THE CLOVERPORT WOMAN.

I especially love to say things to cheer omeu on account of the monotonous for to which the majority of them are abject. At any rate I may give some title help. It is always the case that we women that are most needed are kely to be the ones overtired and are it to be and away with a great amount sety to be the ones overtired and are to to be endowed with a great amount conscientiousness as to their duties. then the preacher wants any help he compelled to call upon those women he have already more than they ought do, but from them he always expects unable assistance. I will quote from a vorite author of mine who say:

unance assistance. I will quote from a vortice author of mine who says:
"The real tragedies of life are often und where we leastexpect them. They e going on before us in the lives of any a wife and mother to-day who, beteen her duties to her husband, her either her church and the calls of so-th; wiftigh he must not slight, because ety, which she must not slight because try, which site must not signit occause her husband's position, is being killed fore our eyes, tortured at the same ne by incompetent servants, which akes housekeeping and the creation of comfeable home alm sit an impossitive. The question is what shall a man do who is conscious of this nerwis strain and vermust on on working.

us strain and yet must go on working ntinually? All you can do is to put urself in the condition to be rested, you are in higher hands than your n and all you can do is to furnish oc-ions for anything that deserves the ne of rest. You cannot get at it sim-by your will; it cannot be taken by y by your will; it cannot be taken by cee, but take all the quietness that is ssible for you. It is not the work but a worry that kills. To have the mind I of the petry details of every day—is, many a mother of a family, sorrowfulknows, to become unable to read anying but the daily paper, and to see self compelled to the same life as that the tread-mill house to feel hersaft reserved to the same the ast mar-the tread-mill horse, to feel herself at out from all the broad and life-ing currents of thought, to find her-fat last unable to interest or even amuse those she longs to serve, and to herself growing old before her time.

herself growing old before her time, thing keeps a woman young and shilke broad and deep mental activi-There is nothing which will give a nec for rest to overtired nerves so ely as a simple religious faith in the e and tender Providence which has in its keeping. It is in chafing last the conditions of our lives that tire ourselves immeasurably. It is inst the conditions of our lives that tire ourselves immeasurably. It is being anxious about things which we not help. A simple faith in God, so nt he knowledge that He cares for at least as much as we care for those o are the nearest and dearest to us, do much to give the tired nerves the ing of the bird in its nest."

to live in an age so grand and gtoriso leaught with opportunities and
sibilities that there seems nothing too
t for a woman to accomplish. We
convinced that there is more truth on fiction in the assertion that the d that rocks the cradle is the hand moves the world. Woman's power ow, as it always was, "the power belt the throne."

Improvements at Baskett.

Improvements at Baskett he sea that place have been put in er condition than ever before, and naive improvements will be made in tion to those already under way and pleted. James Herron, a mining of many years experience, has been inted general superintendent. He been with the Breckenridge Compativitoria for several years, and is a class man,—Owensboro Messenger.

hat measures are you taking to stop cough? Let us suggest DeWitt's gh and Consumption Cure. It is in-ble.—Sold by Short & Haynes.

CRUSHED TO DEATH

Henry Spaulding. a Colored Section Hand, Misses His Footing, Falls Under the Wheels and Instantly Killed.

Henry Spaulding, a colored man working on the section here, was run over at the shops last Wednesday morning and was instantly killed. The work train was pulling out from the shops and Spaulding, it is thought, was attempting to throw off the brakes and in some way missed his footing and fell between the missed his footing and fell between the cars. Before anyone knew it two wheels of the car had passed over him cutting his body in two at the hips. His man-gled body was picked up and put on a hand car and brought to the depot where an inquest was held by Squire D. Ham-bleton. The verdict of the jury was that his death was an unavoidable accident and that the railroad men were not to blame.

Mr. Crouch the foreman, under whom Mr. Crouch the toreman, under whom Spaulding was working, said he was one of his best men, and was very much af-fected over the accident. Spaulding was a young man 18 years old and lived with his father, Pete Spaulding.

IN WASHINGTON.

Irrepressible Billy Sterrette Bobs Up [After a long Silence-Will S. Mepresent the Lenisville Com-demercial at Washington. After a long silence that irrepressible

After a long silence that irrepressible journalist, Billy Sterrette, late of the Midnight 8nn of this city, has bobbed up again. Mr. Sterrette has been considering a proposition from the Louisville Commercial to take charge of its Washington correspondence during the coming session of Congress, for several weeks, and has at last decided to accept the offer. He has completed allarrangements and will leave next Thursday for the Capitol city where he will make his home during the coming winter.

the Capitol city where he will make his home during the coming winter.

Mr. Sterrette has an uncle in Washington who has several times offered to secure him a place on one of the Washington dailies, and it is quite probable that Billy will decide to make that city his permanent home.

He is a smooth, easy writer and can, if he desires, make a name for himself in the world of journalism.—Owensboro Messenger.

THE IDEALT BRICK COMPANY ORGANIZED.

Getting Ready For Business.

The stockholders of the Ideal Brick The stockholders of the Ideal Brick Company held a Imeeding in Louisville last week, perfected an organization, elected a board of directors and officers. The directors are Capt. J. M. Phillips, 10f Memphis, Col. Ed Bennett and Mr. R. M. Jolly, of Irvington. Capt. J. M. Phillips is president and R. M. Jolly secretary and treasurer. Twenty thousand dollars cash was paid in and the company is now in shape for business. They will put in a 150 horse power engine and two boilers and use the square kilns for burning. The plant will be first-class in every particular and have a capacity of 25,000 per day.

The Pierce Tobacco Warehouse Rented

THE merchants who ate turkey Thursday can continue to feast on that most delicious fowl if they use the advertising columns of this paper judiciously. No advertising no turkey.

The roads to this town are getting impassable again. In fact it is the case all over the county at this time of the year. And still there is no move upon the part of any one to remedy this State of affairs. It is a shame.

Pat Bannon's Vitrified Brick Con-

Part of Fifth Street, Recently Laid, Will Have to be Repaired.

The Courier-Journal says:—Nearly 200 square vards of the vitrified brick pavement-on Fifth street, between Walnut and Chestnut, which was completed a few days ago, has been ordered torn up by the City Engineer, as it has already shown wear, the brick being too soft. The brick condemned was furnished gratishy Pat Bannon, of this city, who was anxious to have his brick given a trial. It was his first experiment, in making It was his first experiment in making the vitrified material. Mr. Bannon will tear up the bad pavement and replace it with better brick of his own make, which will put him to an expense of \$150 for the work alone. Mr. Bannon is confident that the brick he will put in this time will be just as good as that

ade at Cloverport.
City Engineer Mehler believes that vitrified brick is the coming pavement, but is not ready to give an opinion yet. He says the effect of the winter on the brick must be seen before it can be decided whether the pavement is durable. He will watch closely this winter all the squares that have been paved, and if the brick will stand the frosts and changes in the weather he believes it will be the cheapest and best pavement for the

ANOTHER HORRIBLE DEATH.

John B. Fella Loses His Life While Attempting to Mount a Moving Train.

John B. Fella, a fireman and brake-man on the short line railroad running from this city to Victoria, came to a fearful death yesterday about 10 o'clock.
Mr. Fella has only been running on the
road for about a month and the news of
his death yesterday was a shock to the

whole community.

The particulars of the sad affair as learned from engineer Klein and several others who testified before the coroner's

jury are as follows:

The train was on its morning run to Victoria and was made up of three flat cars, a box car and a caboose. The three cars, a box car and a capoose. The three flat cars were in front of the engine and were to be run on to a switch just this side of Victoria to be loaded with lumside of Victoria to be loaded with lum-ber. Just before the train resched the switch Fella ran out over the cars and jumped off to open the switch. He had opened the switch and gave the signal to the engineer to come ahead and walked down the track to meet the cars. The engineer said he threw open the throttle and adjusted his pump to let some water into the boiler. When he looked up again he missed Fella and could not see him. He immediately stopped his enhim. He immediately stopped his en-gine and gave the alarm. Mr. Herron who was in the caboose came forward and went ahead of the train to find out the trouble. Here he found young Fel-la under the car and almost lifeless. He at once got him out, carried him to the caboose and ministered to his wants as best he could. Fella was still conscious and said he was badly hurt and would die. He only lived about three-quarters of an hour and died on the train in fearful agonies. It is thought that he attempted to mount the front of the car, missed his footing and fell under the brakes. His body was not mangled but crushed, and he was evidently hurt internally which caused his death.

Mr. Fella was an industrious and thorcaboose and ministered to his wants as

Mr. Fella was an industrious and thorough going young man and a favorite with his family and all who knew him. He was just entering his nineteenth year and was the son of Mr. C. J. Fella, proand was the son of Mr. O. F. Pena, pro-prietor of the saw mill in this city. An inquest was held at his father's residence at two o'clock yesterday. The following is the verdict of the jury:

We, the jury, find that the dead body before us is that of John Fella, or Clo-verport, Ky, who came to his death by accidentally falling under a moving train on the Breckenrige Company's railroad, and was crushed to death.

THE JURY: J. R. De Haven, foreman, W. W. Brooks, R. D. Witt, C. Swaggart, John Jennings and Albert B. Oram.

His remains will be taken to White Cloud, Ind., this morning for interment.

The Cabmaa Was Afraid.

Mr. Walter Besant tells the following story of a disputed cab fare: "A friend of mine drove from Piccadilly to some place in the suburbs outside the radius. On getting down he tendered three shillings and sixpence for his fare—this was a little over the proper fare. The driver wanted five shillings. Tae passenger resead. "I'd like to fight you for it, 'said the driver. 'The very thing!' cried my friend, who had never in his life put on a boxing glove, and was almost as ignorant as Mr. Pickwick even of the fighting attitude. 'The very thing! Capital! We'll have the fight in the back garden. my brother will look on, hold the stakes and see fair play.' The cabman got down slowly.

"I was pleased,' continued the nar-

and see fair play. The down slowly,
"I was pleased,' continued the narrator, to discover that he appeared almost as much afraid as I was myself,
perhaps—if that was possible—even
more. He followed into the back garthe was a lavely little bit. perhaps — if that was possible — even more. He followed into the back garden, where there was a lovely little bit of turf, quite large enough for practical purposes. I placed my five shillings in my brother's hands, took off my coat and waistcoat and rolled up my sleeves, all with an appearance of cheerful alacrity.' Now, my friend, I said, 'I am ready as soon as you are.' The anxiety of the moment was, I confess, very great. But it decreased as I watched the man's face express successively all the emotions of bounce, surprise, doubt, hesitation and abject cowardice. 'No, 'he said, 'gimme the three and six; I know your tricks, both of you. I've been done this way before.' And so, grumbling and swearing, he drove away.'

A Reminiscence of Carlyle.

Mr. Robert Harrison, who has been librarian of the London library for more than thirty-four years in the course of his presidential address at the Librarians' conference at Nottingham, gave some interesting reminiscences of Carlyle, who was accustomed to frequent the library. He said: "Carlyle often visited the library. His conversation was most ambers." brary. His conversation was most amus ing, full of extravagant and exaggerate statements, and always ending with statements, and aways ending with a loud laugh, apparently at himself. He used the library books extensively for his later works, and was guilty of the reprehensible practice of writing on the margin of the books. I must admit that his remarks were never meaningless, but chiefly consisted of corrections of date or

errors in the text.

"One remark of his, however, which was pretty well known, was a criticism.
It occurred in Charles Dibdin's collection It occurred in Charles Dibdin's collection of songs, the last page of which contained the ordinary version of 'Rule Britannia.' At the foot of this boastful song Carlyle had written 'Cock-a-doodle-doo,' with a small forest of notes of exclamation after it. In a case like that the librarian would be a martinet, indeed, if he effaced from the book an expression so charac-teristic of the man of genius who wrote it."—Pall Mall Gazette.

The Cultivation of English Walt The Cultivation of English Walnuts. Great success is being made with the cultivation of English walnuts in Cali-fornia. It is believed that they can be produced profitably in the eastern states as soon as more experience is had in the fertilizing of the flowers. This is always a great difficulty, and it has been found on the Pacific coast that a very effective remedy for it is to plant among the trees black walnuts, or even the common but. remeny for it is to plant among me trees black walnuts, or even the common but-ternuts. They are all cousins and the plentiful pollen of the butternut or black walnut trees fertilizes the blossoms of the English walnuts, which would not otherwise be impregnated.

Before very long this country will be hipping English walnuts abroad, and

hipping English walnuts abroad, and the same is likely to be the case with al-monds. Of the latter very big crops are now produced in California and Arizona. They require a dry climate. East of the Rocky mountains they do not do well, because of the frosts and dampness.—

Didn't Lose Much.

One day a gentleman named Fleming called on Mr. C—, and both being members of the same society the conversation drifted in that direction.

bers of the same society the conversation drifted in that direction.

"You were not at the last meeting," said Mr. C.— to Fleming.

"No," replied the latter, "I was unavoidably absent. I have lost my wife."

Now Mr. C.—, who was somewhat deaf, failed to hear the last remark, and said, emphatically, "Well, you didn't lose much!" referring, of course, to the meeting of the society.

When Miss C.—, who was present, explained the situation, her father was overwhelmed with shame, and made most humble apologies. Fleming understood at once, and had no thought of being offended, as Mr. C.— was known to be scrupulously polity and tenderly considerate.—Harper's.

Hit Him With a Cloverport Vitri-fied One.

Why should laughter loving people go to Brazil? Because they are Forsecas.

To Advertisers

If you wish to advertise

I need instruction, send one dollar our "Book for Advertisers." A lie study of that book will enable a to decide what you ought to do, d give an idea of the probable cost

you instruct us

place a certain amount of advising for you in the way we this ill do you the most good, you should an explicit statement of who are supplied and many places and many places and many places and many places are supplied as a sup

you wish an advertisement

or preparing

lectrotypes and estimates the ad-ortiser pays us. For the expense of lacing advertisements and watch-ag the fulfillment of contracts we re paid by a commission allowed by he publisher of the paper in which he advertisement appears.

If you want to learn

all the ins and outs of advertising without any cost or trouble, read PRINTERS' INK regularly, carefully, studiously; issued weekly, \$2 a year. 'you wish a complete catalogue of newspapers, send \$5 for the Ameriish a complete catalogue of pers, send \$5 for the Ameri-aper Directory. further information address

GEO. P. ROWELL & CO., Newspaper Advertising Bureau, 10 SPRUCE ST., NEW YORK.
